Environmental Reel Breakdown

20th Century Fox Fanfare and Variations:

1. Lead Modeler. Modeled logo and platform highlighted in white. Led team of two to create vegetation and background geo. Collaborated with multiple departments to create pipeline for generated city background.
2. Lead Modeler. Modified 20th Century logo and set to create logo variations. Reel includes Fox Star, Ice Age Variation, and 75th Anniversary Variation. Other variations include Fox Searchlight and Fox Home Entertainment.

Ice Age 3:

3. Sequence Lead. Modeled ground and columns highlighted in white. Modeled background highlighted in black with team of 3. This background is used repeatedly throughout the film.
4. Sequence Lead. Modeled bone bridge, hanging vines, and roots highlighted in white. I also modeled a phase 0 version of the whole set with teammate.
5. Sequence Lead. Modeled rock formation, ground, and mountains highlighted in white.
6. Sequence Lead. Modeled mountain range. Bottom right glacier detail modeled by teammate. This background is also used repeatedly throughout the film.

Horton Hears a Who:

7. Modeled mountain and foothills as individual assets reused in multiple sequences.
8. Modeled multiple trees used to make up jungle of nool.
9. Modeled prop for comedic gag.
10. Modeled highlighted mountain.
11. Modeled highlighted chasm.
12. Modeled highlighted rocky peaks and ground.

Personal Work:

13. Created model and textures. Concept by Gergely Buttinger.
